

AYUSH TYAGI

DIGITAL CONTENT & DESIGN SPECIALIST

SUMMARY

Multi-skilled digital creator with experience in video editing, graphic design, and front-end web development. Skilled in creating user-focused visual content, responsive interfaces, and digital media assets with a strong understanding of modern design and content workflows.

EXPERIENCE

Content Creation & Video Production

Self-Managed | 2019 – Present

- Worked on video editing, thumbnail design, and digital content production
- Developed practical understanding of content structure, branding, and visual presentation
- Managed content workflows across multiple digital formats

Front-End Development

Independent Learning | 2025 – Present

- Building responsive web interfaces using HTML, CSS, and JavaScript
- Developed web-based projects focused on clean UI and usability
- Learning modern front-end structure and responsive design practices

E-commerce & Digital Operations

Independent Project | 2024 – Present

- Worked on product presentation, branding visuals, and content organization
- Explored digital workflow management and user-focused presentation
- Developed understanding of online content and operational structure

PROJECTS

Portfolio Website

Responsive portfolio website focused on clean UI, usability, and modern web structure.

Video Editing & Content Design

Worked on gaming-focused video editing, thumbnail design, and visual content presentation.

Branding & Product Mockups

Created branding visuals and promotional mock-up concepts for digital media projects.
